The Trevino Group Builds Visions

Nearing on 50 years, the management team of The Trevino Group, Inc. (TTG) has excelled at providing general contracting, construction management, design/build and job order contracting services to clients in Texas. Since our founding, we have focused our efforts in the institutional, public and commercial sectors of the health care, education and government markets. We take pride in our successful track record, our reputation for value-added service and our ability to deliver what clients want, with quality and professionalism.

The Trevino Group Builds Trust

Whether it's a renovation of an existing facility or a new ground up project, TTG's knowledgeable, hands-on team insures the efficient and timely completion of every project. We are pleased to work directly with building owners, architects, engineers and fellow contractors, and are proud of our many long-term associations. While building dependable, lasting relationships is key to our success, many factors set us apart.

- A proven reputation of performance and our years of experience in the construction industry.
- Our exemplary safety programs and our track record for minimal on-the-job accidents.
- Our long-established relationships with qualified, dependable subcontractors who are experts in their fields and who share our same high standards for quality and performance.
- A skilled workforce that historically performs 20% of our work.
- A corporate infrastructure that minimizes operational disruption, expedites material ordering and manages multiple projects without issue.
- Quality and communication controls that insure accurate estimates and optimal project management.
- A philosophical commitment to exceeding expectations, from project inception to completion

BAYLOR SCOTT & WHITE

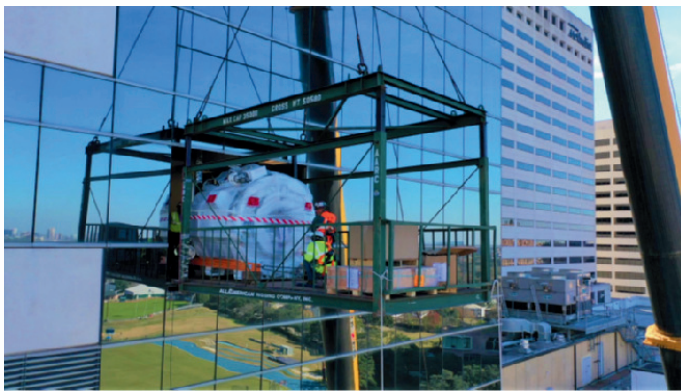

Imaging Suite

Modify
Replace

Renovation to existing Imaging Suite on active campus in Temple, Texas. Our team is always striving to bring out clients visions into reality, and this project is a shining example of our teams extraordinary work.

This project consisted the construction of approximately 1,300 SF on the 16th floor of the Outpatient Center to provide one (1) MRI room, (1) one equipment room, and an expanded control room. During which time the Owner intend is to continue to occupy adjacent portions of the existing building during the entire construction period.

HOUSTON METHODIST MRI LIFT AND INSTALL

16th Floor Clinic

PROJECT NOTEABLES

- Minimal Impact to End Users
- Extensive Coordination with Surrounding Facilities
- Aggressive Scheduling and Minimal End User Impact

BAYLOR SCOTT & WHITE

New Clinic

Ground Up New Facilities

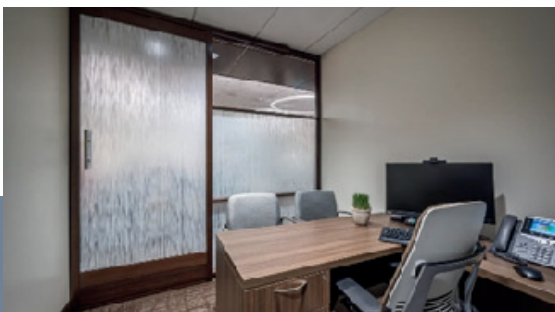

New clinic consisted of approximately 8,000 sq.ft. with extensive masonry, stucco, and highly detailed wood paneling. The interior included a series of patient rooms, nurse & admin offices as well as a phlebotomy and testing area.

HOUSTON METHODIST

Clinic
Renovations

MODERNIZATION & GRACE

This project consisted of the relocation of the OPC 22 APEC Center to Scurlock 3. Work included new millwork, plumbing, electrical, nurse call, security systems & installation of new AHU/Water Heater/Vacuum Pump in the mechanical space.

HEALING GARDEN

Renovation

"Often a healing takes place in ourselves
as we pray for the healing of others."
- Michael E. DeBakey

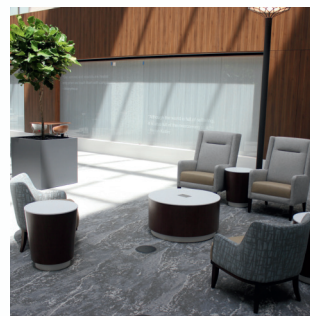

"A kind gesture can reach
a wound that only compassion can heal."
- Steve Maraboli

Communal Space OASIS

Designed to function as a
multipurpose waiting and
joint workspace.
Approximately 3,200 sq.ft
of renovations to the
existing atrium.

Noted Accents:

- Extensive custom glasswork
- Top-notch architecture
- High End Finishes

HOUSTON METHODIST

Interior
Renovation

PATIENT WAITING & CLINIC

This project consisted of the renovation of a clinic and large patient waiting space designed to exude calm for those entering the clinic. The finishes for the project included a set of custom glass water features and extensive ornate millwork.

AVENUE 360 CLINIC

Ground up

New Clinic Complex

This project was a 12,000 SF two story ground up for the Avenue 360 Health & Wellness Center. The build out of the new structure consisted of twelve (12) offices, clinic rooms, two (2) nurse's stations, and supporting MEP systems.

NEW OFFICES

Interior
Renovation

Modern Shared Offices

New administration wing of roughly 30 offices, 2 conference rooms, a teaching auditorium, and an MEP overhaul to support the facility.

Noted Accents:

- Custom Millwork
- Integrated AV systems throughout facilities
- Extensive Natural Lighting

This project consisted of the renovations of the an administration space. ~2,500 sq.ft. of new offices, conference rooms.

As with many of our projects this was completed with the tenants remained occupied in the space. This requires extensive levels of coordination which we are accustomed.

NEW ADMIN SUITE

Department Renovations

PROJECT NOTEABLES

- Custom AV
- New Conference Rooms
- Additional Workspaces
- MEP Overhaul
- Bathroom Upgrades

This project consisted of the renovations of the new executive health center. This includes new Nurse stations, clinic rooms, patient bedrooms, offices, conference rooms, includes a break room and kitchen space.

HOUSTON METHODIST

Executive Wellness

PROJECT NOTEABLES

- Extensive Custom Finishes
- High-End Office Space
- Office-Wide AV System

UNIVERSITY OF TEXAS

Medical Branch
Galveston
Library Renovations

LOUNGES, STUDY AREAS, CONFERENCE ROOMS

This renovation project consisted of approximately a 6,000 sq.ft. library and its surrounding facilities. As the library is shared by students, doctors, nurses, and patients alike the variety of space is accentuated by extensive alcoves and conference rooms to accommodate all the end users.
